=> O**u**r F**ree Services**

-> Basic SEO (Search Engine Optimization), Directory Submission for e Commerce Application.

-> Free Basic SMO (Social Media Optimization) Basic Graphics Bundle included.

-> One Year Free Domain + Hosting (example.com , example.in).

-> One Year Free SSL (Secure Sockets Layer).

=> **Maintenance**

-> Dabusco provides 6 month of free maintenance towards all kinds of errors occurring in run time of the
    website/application/project. Free maintenance does not include content updation.

-> As per your requirement, we can provide paid technical support from 7th month. The cost for the same will be
    5k/month.

-> **Paid support will include all your below listed points:**

✓ Maintaining general health of the application front end

✓ Backend Admin panel bug fixing if any

✓ Front end Bug fixing if any

✓ Backup of project source codes and database

✓ Compiling & creating new version after necessary bug fixing /
   patching is done.

✓ Debugging for issues which will be reported

✓ Managing Documentation for the source code and its updates

✓ Any service / bug request should take MAX 3 to 4 days
   turnaround time. This should be true for low to medium
   complexity of issue. If there is an advance complexity it should
   not take more than 7 to 10 days turnaround time to solve the
   issue depending upon the nature of the problem.

✓ Maintenance of up to 30 hours / month could be
   negotiated

-> Maintenance will not include any new feature addition, It is possible on extra costing as per the requirement.

-> Hosting and domain service need to be renewed every year. It would be free for the first year, and would later
    need to pay approximately 10k/year separately.

=>**Time** D**uration**

   This project will take 2 months. And it will take 15 days of testing

=> **Payment Met**h**od**

   50% Advance and 50% After Completion .

Terms and Condition::

-> We will provide support for our software interface , but if any issue occurs related to a third party(like payment
    gateway, api, play store, server etc) it will take resolution time as per third party response and complexity of issue.
